

## **Innovations in Medicine**

### **The University Medicine Zurich strategy and participation opportunities**

by [Prof. Dr. Beatrice Beck Schimmer](#), Vice President Medicine Zurich and

### **The Digital Society Initiative – UZH’s flagship for cross-faculty research collaboration**

by [Prof. Dr. Claudia Witt](#), Director Digital Society Initiative, UZH

The future of medicine is interdisciplinary, with AI as a team member.

The Digital Society Initiative (DSI) is UZH's competence center for digital transformation connecting all seven faculties to foster interdisciplinary collaboration through topic-focused research communities and strategy labs. As UZH's flagship for cross-faculty research collaboration, DSI explores the opportunities and challenges of interdisciplinary research and diverse academic cultures. Current AI initiatives will be also highlighted.
